

Thambaa Tamil Labs

Quick Installation Guide for Mac

System Requirements	
macOS:	11.0 (Big Sur) or later
Macs:	2014 and newer (Intel & Apple Silicon)
Internet:	Required

Installation Steps

1. Download and Extract

- Download the Thambaa Labs ZIP file
- Double-click the ZIP to extract it
- You'll see: **ThambaaLabsInstaller.dmg**

2. Open the DMG

- Double-click **ThambaaLabsInstaller.dmg**
- A window opens showing the Thambaa Labs app and Applications folder

3. Install

- **Drag** the Thambaa Tamil Labs icon
- **Drop** it on the Applications folder
- Wait a few seconds for copying to complete

■■ IMPORTANT: First Time Opening

Because this app is not from the Mac App Store, you must use this special method the FIRST time:

4. Open the App (First Time Only)

- Go to **Applications** folder (press Shift + Command + A)
- Find "Thambaa Tamil Labs"
- **Right-click** (or Control + click) on the app
- Select "**Open**" from the menu
- Click "**Open**" in the security dialog
- The app will launch in fullscreen! ✓

Note: You only need to right-click the first time. After that, just double-click to open normally.

Alternative: System Settings Method

If you already tried to open the app and saw an error:

macOS 11-12: System Preferences → Security & Privacy → General → Click "Open Anyway"

macOS 13+: System Settings → Privacy & Security → Scroll down → Click "Open Anyway"

Using the App

- The app opens in **fullscreen mode** for focused learning
- **Zoom:** Command + Plus (zoom in), Command + Minus (zoom out)
- **Minimize:** Command + M
- **Quit:** Command + Q
- **Escape:** Exit fullscreen videos/books

Troubleshooting

"App is damaged": Delete and re-download the ZIP file

"App needs to be updated": Your macOS is too old (need 11.0+)

Can't find app: Press Shift + Command + A to open Applications folder
