Overview

Thambaa Tamil Labs is a comprehensive digital learning platform designed to revolutionize Tamil language education through technology-integrated learning environments. This installation guide provides step-by-step instructions for deploying the desktop application in educational institutions.

Important: This application is designed for Apple Mac-based computer laboratories in schools and educational institutions implementing Thambaa Tamil Labs programs.

Thambaa Desktop Application

Quick Installation Guide for Mac

System Requirements	
MacOS:	11.0 (Big Sur) or later
Macs:	2014 and newer (Intel & Apple Silicon)
Internet:	Required

Pre-Installation Checklist

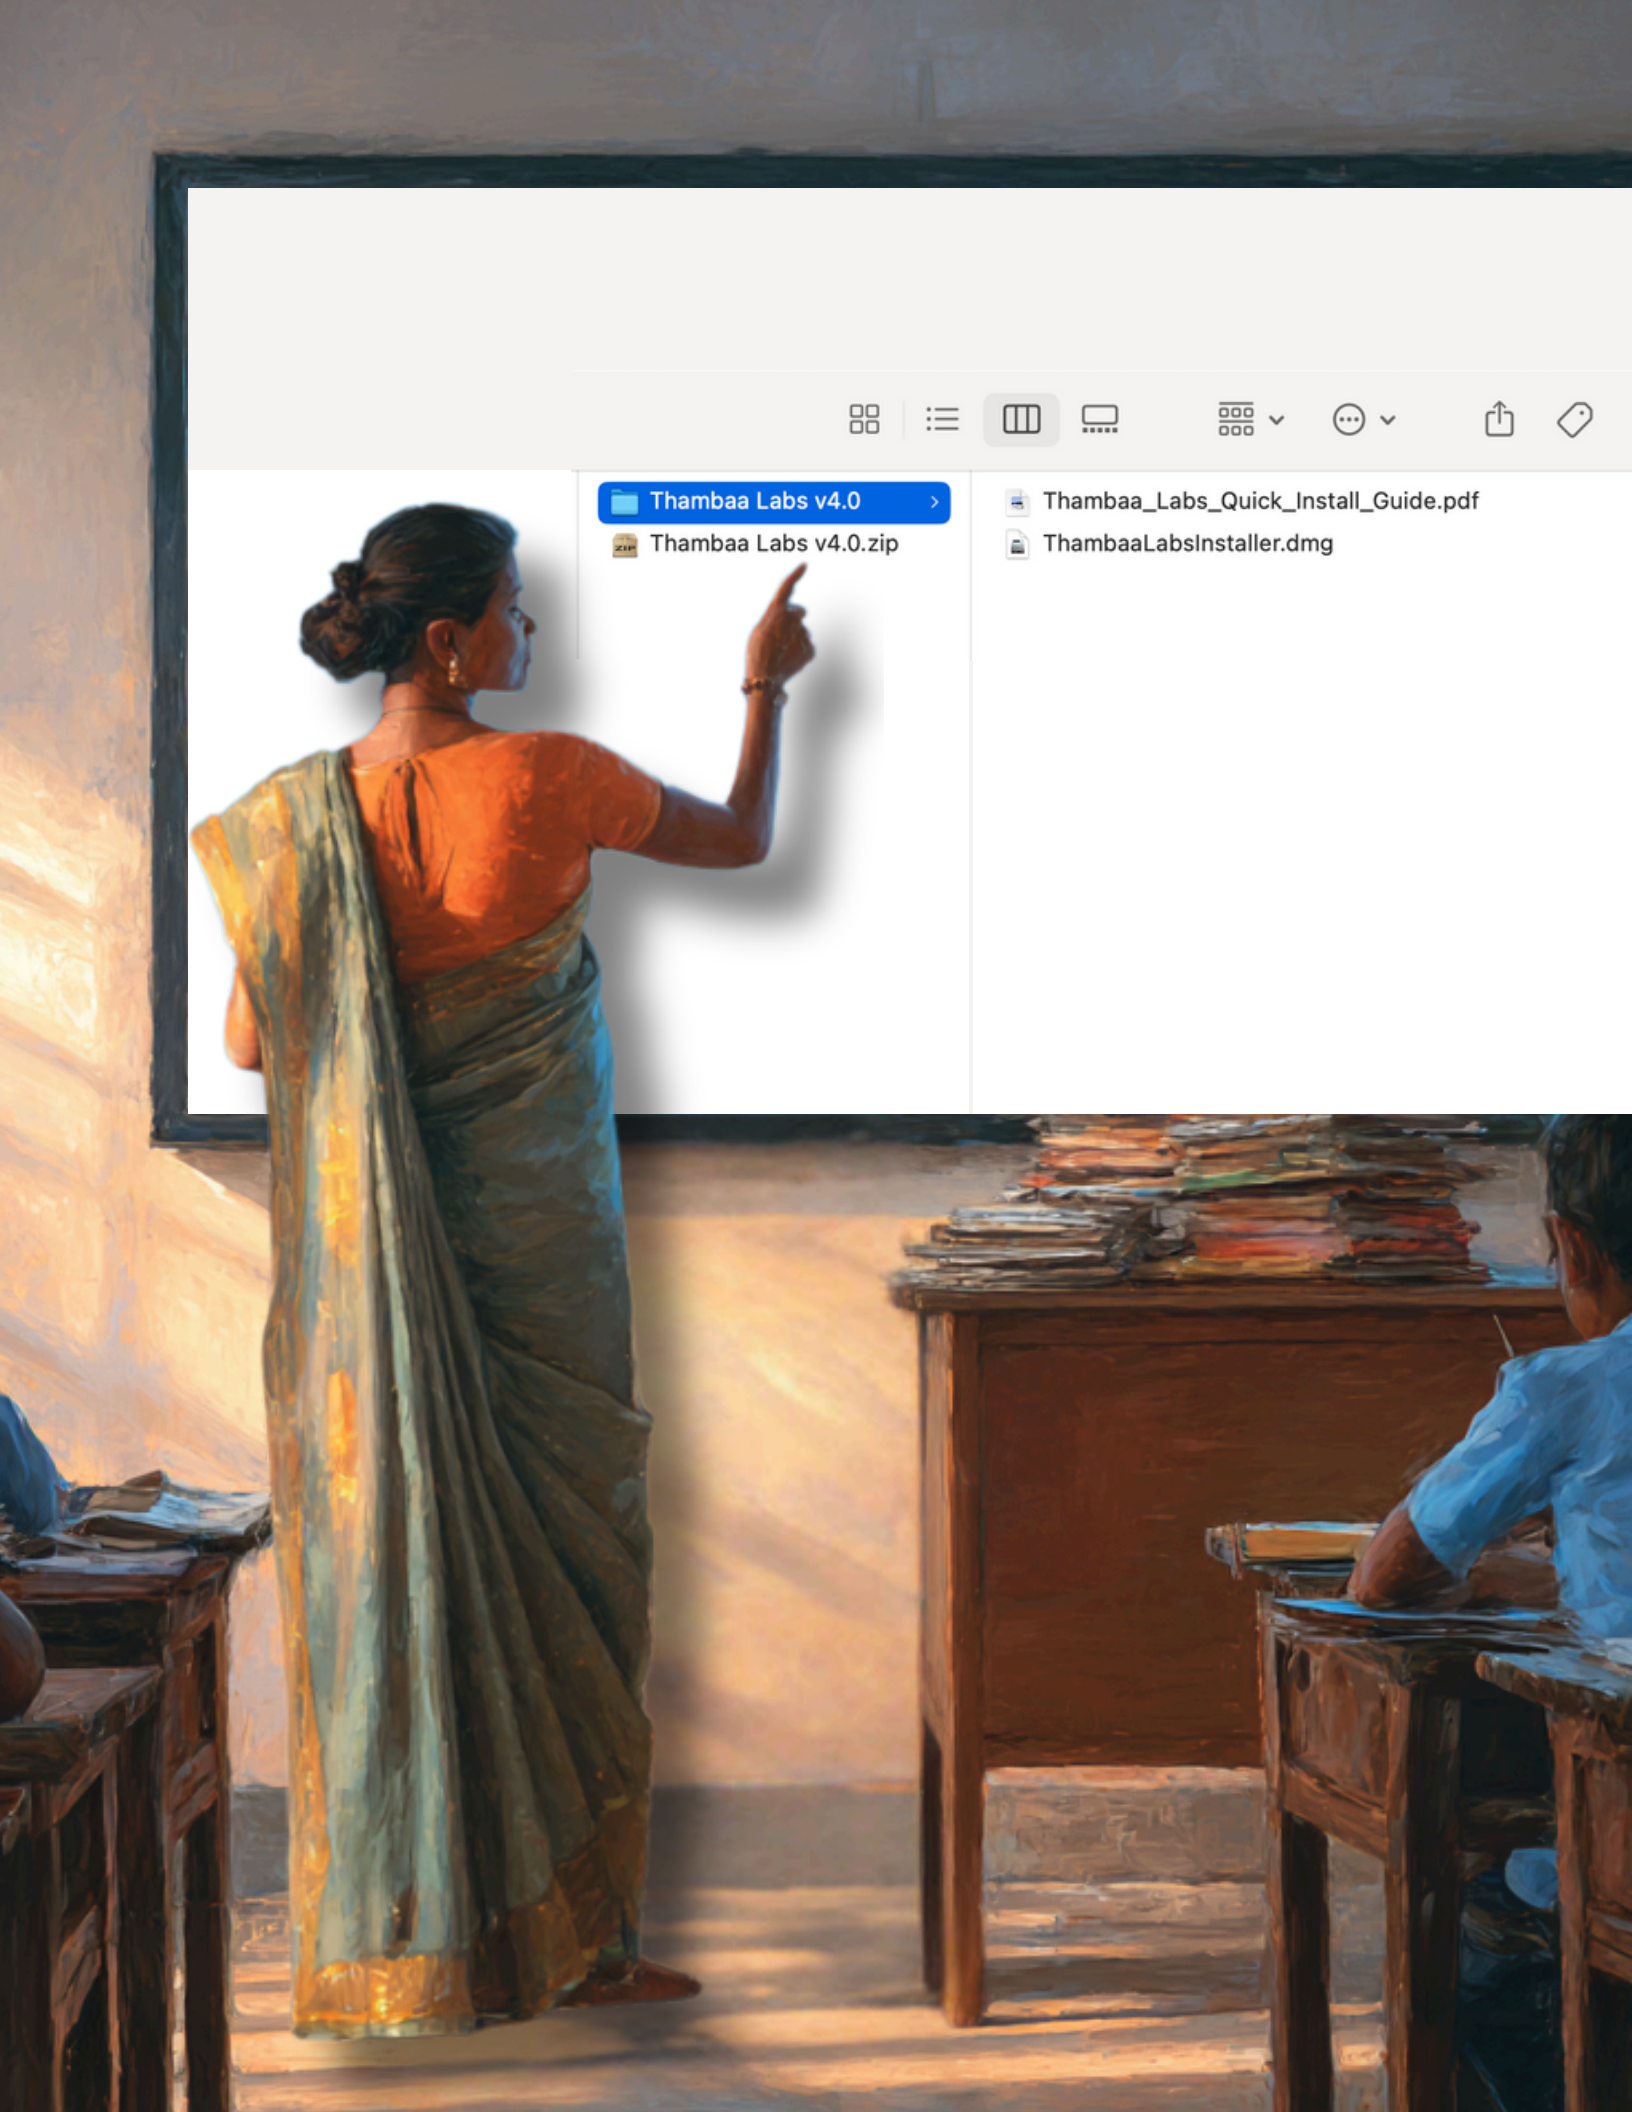

Before beginning the installation process, ensure the following:

For IT Administrators

- Verify administrator privileges on target computers
- Confirm system meets minimum requirements
- Ensure stable internet connectivity
- Obtain installation credentials from Karky Tamil Academy
- Plan installation schedule for minimal disruption
- Backup existing system configurations (if applicable)

For Lab Coordinators

- Coordinate with school IT department
- Schedule installation during non-teaching hours
- Prepare lab workstations
- Organize student login credentials provided by KTA

ThambaaLabsInstaller.dmg

Installation Procedure

Step 1: Download the Installer

1. Download and Extract

- Download the Thambaa Labs ZIP file •
- Double-click the ZIP to extract it
- You'll see: **ThambaaLabsInstaller.dmg**

2. Open the DMG

- Double-click **ThambaaLabsInstaller.dmg**
- A window opens showing the Thambaa Labs app and Applications folder

3. Install

- Double-click **ThambaaLabsInstaller.dmg**
- A window opens showing the Thambaa Labs app and Applications folder

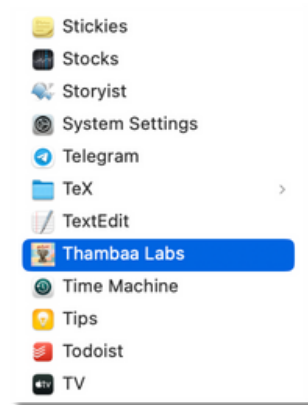

IMPORTANT: First Time Opening

Because this app is not from the Mac App Store, you must use this special method the **FIRST** time:

4. Open the App (First Time Only)

- Go to **Applications** folder (press Shift + Command + A)
- Find "Thambaa Tamil Labs"
- **Right-click** (or Control + click) on the app
- Select "**Open**" from the menu
- Click "**Open**" in the security dialog
- The app will launch in Fullscreen!

Note: You only need to right-click the first time. After that, just double-click to open normally

ThambaaLabsInstaller.dmg

Alternative: System Settings Method

If you already tried to open the app and saw an error:

- **macOS 11-12:** System Preferences → Security & Privacy → General → Click "Open Anyway"
- **macOS 13+:** System Settings → Privacy & Security → Scroll down → Click "Open Anyway"

Using the App

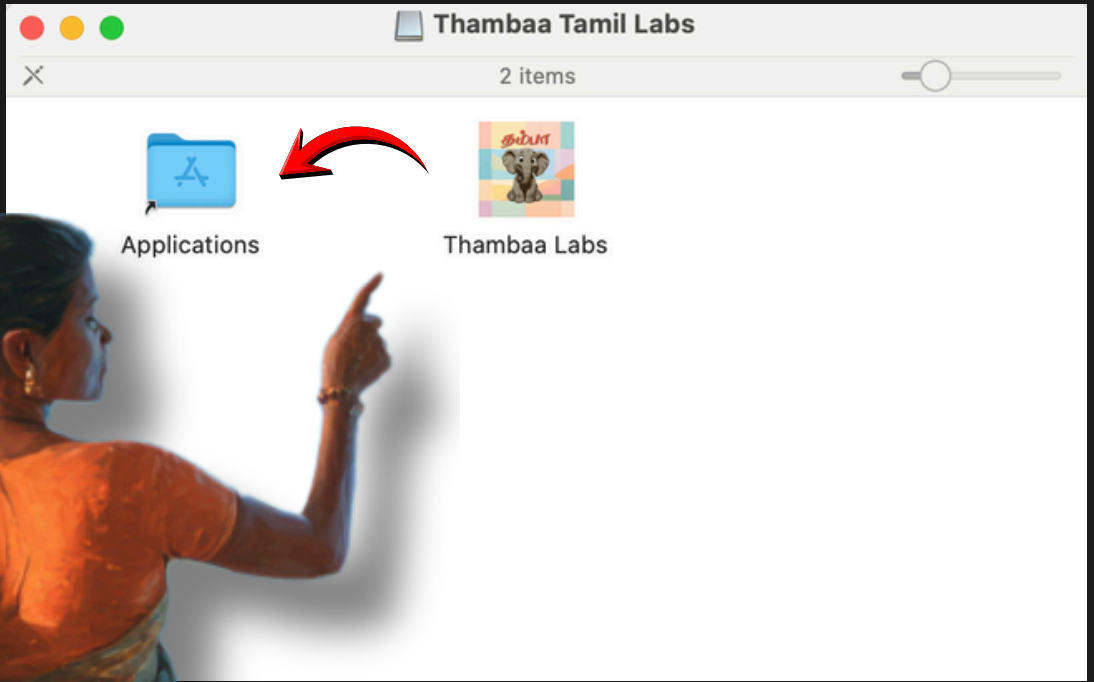

- The app opens in fullscreen mode for focused learning
- Zoom: Command + Plus (zoom in), Command + Minus (zoom out)
- Minimize: Command + M
- Quit: Command + Q
- Escape: Exit fullscreen videos/books

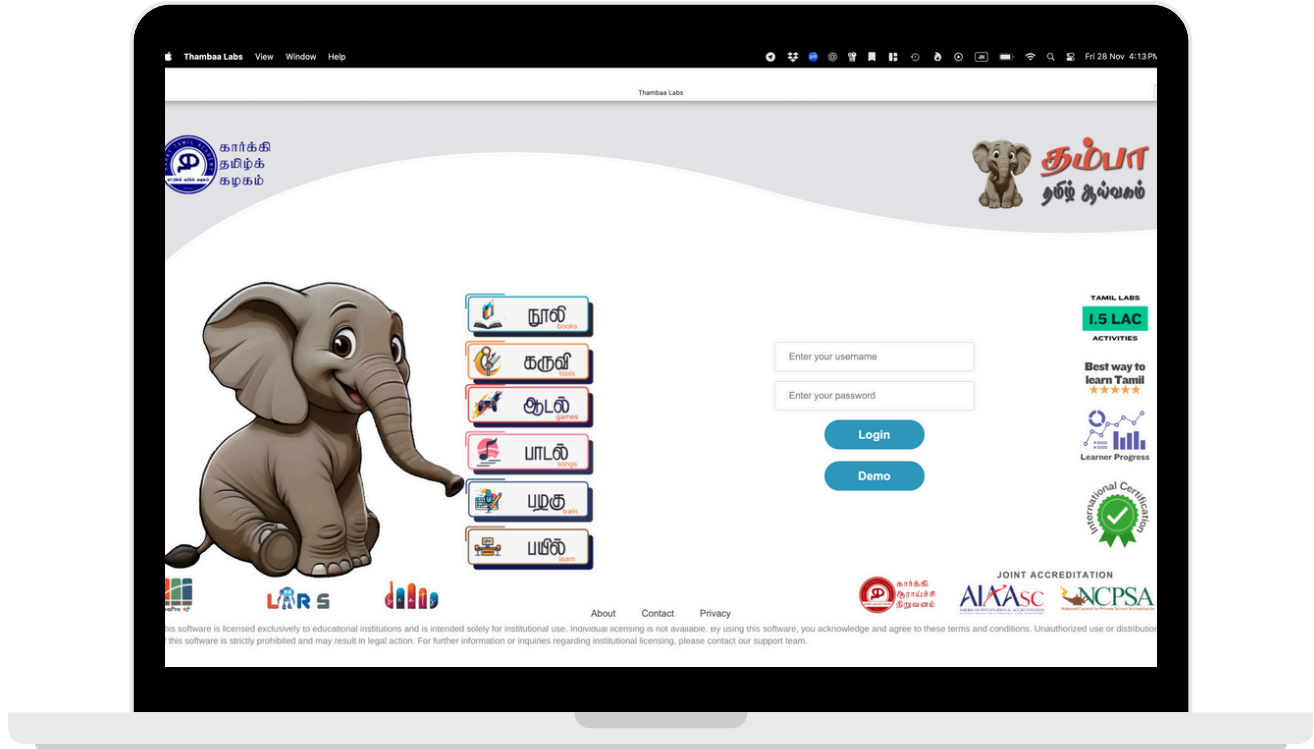

Troubleshooting

- "App is damaged": Delete and re-download the ZIP file "
- App needs to be updated": Your macOS is too old (need 11.0+)
- Can't find app: Press Shift + Command + A to open Applications folder

Need Help?

- Login Issues: Contact your school's Tamil teacher
